OUR JOURNEY THROUGH TIME

1903

Everard Carter established the Chemists and Allied Trades Packing Company in Yorkshire over 100 years ago.

1910

Original products were herbal remedies made from natural botanical ingredients, herbs and essential oils, for example; Cherry Slumber Tea, Neoclenz Herbal Laxative and Nutona.

1928

Norman Carter (Everard's Nephew) joined the family business as a young man, taking over the reins when Everard retired and renaming the company Carter Brothers.

1935

The company has always been based in Yorkshire where it both formulates and manufactures products on site.

1948

The forming of the NHS caused the demand for herbal remedies to decline. Norman's daughter Joan and his two son-in-laws joined the business, diversifying into bath, body and skincare. Carter Brothers became Fikkerts, (Joan's married name).

1986 - PRESENT

Four generations on, Fikkerts Ltd is managed by Richard Fikkert and his wife Julia. The family still proudly manufacture their own products from their site in Yorkshire.
