Olive Fragrance

OLFACTORY PYRAMID OLIVE FRAGRANCE

Head notes

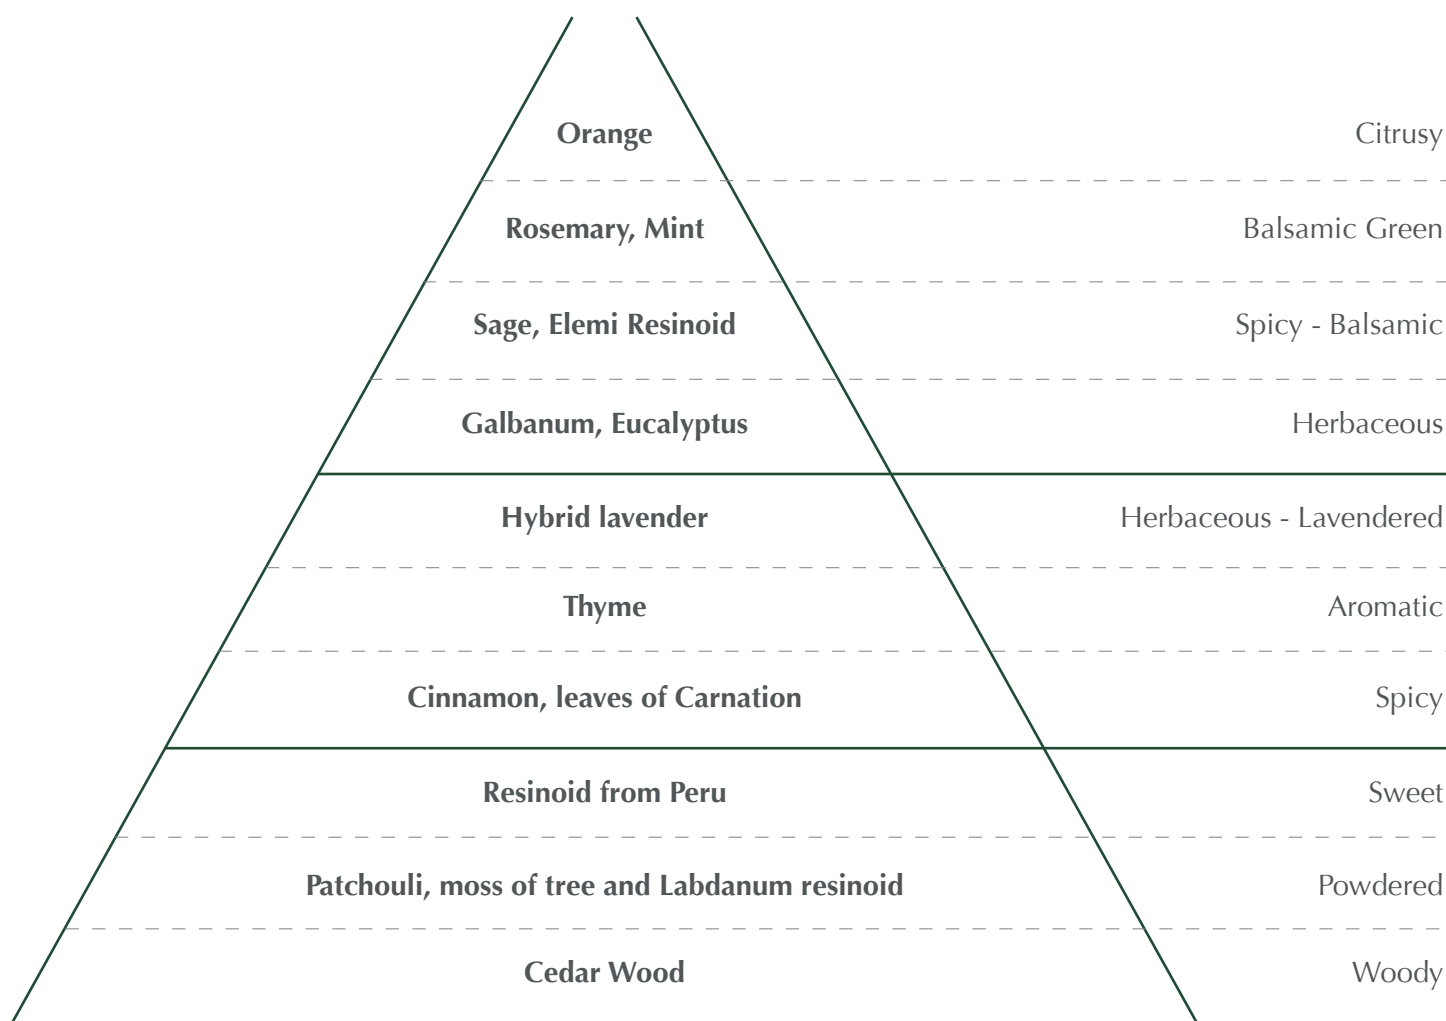

The fresh smell of orange combines to an herbaceous and intense perfume of rosemary and mint, to disguise into aromatic tones of balsamic shades of sage and elemi resinoid. Traces of essence of galbanum, emphasized by a touch of eucalyptus, give to the head of the fragrance a green and slightly balsamic aroma.

Heart notes

The heart of the fragrance characterizes for a fresh and herbaceous harmony of notes of hybrid lavender harmoniously combined with the aromatic tones of thyme, with the pleasing and tenacious personality of cinnamon and with a slightly pungent scent of leaves of carnation.

Base notes

The final part of the composition is dominated by the woody and pleasant tones of the cedar tree that combines with the sweeter character of the resinoid from Peru, melting harmoniously in a powdered combination of patchouli, moss of tree and labdanum resinoid.
